Application for Plan Review

*** Application must be completed by project owner, or agent, and submitted with the required plan, information narrative and fees that apply.

- Erosion and Sedimentation Control (E&S)**
- NPDES General 1+ acres**
- NPDES Individual 1+ acres**
- Stormwater Management (SWM)**

Fees:

E&S Review Fee \$ _____ (See current WCD fee schedule)
 SWM Processing Fee \$ _____ (See current WCD fee schedule)
Total \$ _____ (payable: Westmoreland Conservation District)
 NPDES Permit Fee \$ _____ (\$250.00 General - \$500.00 Individual, payable
 Westmoreland Clean Water Fund)

Project Classification

Residential subdivision _____ Forestry/ silviculture _____ Recreational _____
 Commercial/ Industrial _____ Institutional (school) _____
 Highway Construction _____ Utility construction _____

The Project

Date: _____
Project Name: _____
Municipality: _____
 Location of Project (directions): _____

 General Project description: _____

Total Project Acreage: _____
Total Disturbed Acreage: _____
 Phases of work: Y/N _____

Start Date & Disturbed Acreage each Phase:

Phase No.	Start Date	Disturbed Area

Applicant

Owner Name _____
Address _____
City _____ State _____ Zip _____
Phone _____ Fax _____
Contact person _____ Email _____

Developer name _____
Address _____
City _____ State _____ Zip _____
Phone _____ Fax _____
Contact person _____ Email _____

Project Designer

Name of consultant firm _____
Address _____
City _____ State _____ Zip _____
Phone _____ Fax _____
Plan Preparer _____ Email _____

E&S, NPDES, and Stormwater plan Component Checklist

(Failure to provide the following information = incomplete plan)

E&S Components

_____ USGS Topographic Location (8 ½" X 11) _____ Soil Survey Location (8 ½" X 11)
_____ Erosion controls shown with details
_____ Permanent Controls
_____ (Includes channels, basins, energy dissipaters, Stormwater management)
_____ Seeding specifications, mixes, application rates, mulch type
_____ Soil maps and Classes of site
_____ Detailed Plan Narrative _____ Plan details included
_____ Wetland Mitigation reports included
_____ Wetland Mitigation sites
_____ Chapter 105 permits required for project

NPDES Components

**** Please refer to the component checklist included with the NPDES permit application packet.

Stormwater Components

_____ Narrative _____ Retention systems
_____ Site Plans, location map and topographical information _____ Precipitation and
_____ Methods of runoff calculations _____ Stormwater data
_____ Worksheets and calculations
_____ Design consideration of stormwater velocity & volume
_____ Consideration of downstream effects of released water
