

Rain Garden for Seasonal Interest

None of these shrubs or perennials should leave your garden looking plain in the winter or early spring! Many of these plants have berries, colored branches or leaves, or even flower or seed heads that are of interest during the fall and winter months.

A Select one (1).

Blooms: July-September

Note: Each plant you select will be used in the design; however, the exact number of individual plants will depend on the size of your garden. The plants selected for this rain garden theme were chosen for their beauty, their low maintenance, and their ability to thrive in wet and dry environments. The plants in the rain garden will be guaranteed for a prescribed period of time against natural problems. If they should fall victim to some natural cause during this guarantee period, they will be replaced at no cost to you.

Cut here and keep the top portion for your records.
